Use this list as a guideline as you pack for your program abroad. The items that are marked with an asterisk (*) should be packed in your carry-on bag. Read your Program Packet, monitor the weather, and research your program’s location for additional packing tips.

**IP TIP**
Wear your International Programs garnet t-shirt as you travel to your study abroad destination to help our staff identify you at the airport, if there is a pick-up provided.

**IP TIP**
Other countries may have a stronger electrical current than the U.S. The electric current abroad may cause hair tools such as hair straighteners, curling irons, and hair dryers to burn out—so leave these items at home!

**IP TIP**
Bring copies of these documents with you and leave spare copies with family members in the U.S.
